

Alex Bahena

Alsip, IL | (773) 979-5042 | alex.bahena.cs@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Full-Stack Software Engineer with a B.S. in Computer Science from the University of Michigan. Experienced building scalable web applications using React, Next.js, TypeScript, Python, and SQL with strengths in REST API development, database design, and Git-based workflows.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, TypeScript, SQL **Frameworks:** React, Next.js, Node.js **Databases:** PostgreSQL
Web: HTML, CSS, REST APIs **Tools:** Git, GitHub, Prisma, AWS **Concepts:** OOP, Full-Stack Development

EXPERIENCE

COLAB Connects — *Full-Stack Software Engineer* | Chicago, IL | **Aug 2025 – Present**

- Developed a full-stack talent-matching platform using React, Next.js, and TypeScript supporting recruiter dashboards and candidate profiles.
- Implemented RESTful APIs and PostgreSQL database design to enable scalable backend services and secure data retrieval.
- Built authentication and role-based access control using NextAuth; managed version control using Git and GitHub.

Simba Technology — *Software Developer Intern* | Chicago, IL | **Jun 2024 – Aug 2024**

- Analyzed website traffic and user engagement data using Google Analytics to guide design improvements.
- Built and deployed a responsive developer portfolio using HTML, CSS, and JavaScript with Git-based version control.

MAPSCorps — *Data Scientist Intern* | Chicago, IL | **Jun 2023 – Aug 2023**

- Analyzed large datasets to generate insights supporting community resource allocation.
- Built visual reports and collaborated with cross-functional teams to present findings to stakeholders.

PROJECTS

COLAB Connects Talent-Matching Platform [Github](#) | [Live Site](#)

- Built a full-stack platform using Next.js, TypeScript, Prisma, and PostgreSQL supporting recruiter dashboards and candidate discovery.
- Deployed on Vercel with CI/CD workflows integrated through GitHub for continuous delivery.

Instagram Clone [GitHub](#)

- Developed a React-based social media application with REST APIs, infinite scrolling, and dynamic UI updates.
- Implemented modular frontend components and asynchronous logic to improve performance and scalability.

Portfolio Website [GitHub](#) | [Live Site](#)

- Designed and built a personal portfolio website showcasing projects, skills, and experience using HTML, CSS, and JavaScript.
- Implemented responsive design and structured project sections to highlight full-stack software development work.

EDUCATION

University of Michigan — Ann Arbor, MI

Bachelor of Science in Computer Science

Coursework: Data Structures, Algorithms, Software Engineering, Computer Security, Web Systems
